UNIVERSAL STATEMENT – AFFIDAVIT TO ALL COURTS IN THE WORLD

We, Our Majesty the Emperor of the whole world over the heads of states in the matter of building of the Civilization of Longevity on Our Planet, Anatoli Mantchak, proclaim the following statement.

As part of exposing the old and sick civilization of Anti-longevity We accuse the people of the whole country of the so-called Russia – the Russian Federation, led by its president, of grave crimes that have no statute of limitations.

1. The name Russia since the time of Peter the Great was an additional name of the official Russian Empire.
2. In 1917, the Russian Empire, and with it the identity of Russia, was destroyed by the Marxist-Bolsheviks. The construction of communism began.
3. The Constitution of the RSFSR of 1918 *declared* Russia – that is, the Russian Empire – the Republic of Soviets. By inertia, the use of the name Russia after the irrevocable destruction of its monarchical identity began to be unconsciously pronounced already as a stolen name from the corpse of the Russian Empire. Looting became part of the history of the USSR. Its continues to this day. For example, having reached a dead end of its own underdevelopment, the state of the USSR on the military uniform of the Red Army in 1943 again changed the shoulder straps to samples of the military uniform of the Tsar's army, the tricolor flag of Russian Empire was lifted up, and so on, and so on.
4. The USSR at the official level never called itself by the name of Russia in its documents. And the world still continued to call the country of the USSR as Russia, showing ignorance in this matter.
5. The USSR collapsed. In 1991, the President of the RSFSR Yeltsin illegally proclaimed himself the President of the Russian Federation, signing with this false title the RSFSR Law of December 25, 1991 N 2094-I "On changing the name of the state Russian Soviet Federative Socialist Republic". This crime made the document fictitious, and, with all the desire, does not give the right to change the name of the RSFSR to the name of the Russian Federation! This crime was continued by the same criminals – Presidents Medvedev and Putin. They kind of picked up the Hitler case. In his book "Mein Kampf" he used the name Russia, not the USSR.
6. Since 1991, the RSFSR began to exist under forged documents. The RSFSR littered the whole world with fake documents. The RSFSR began to present itself as Russia, flaunting the symbols of Tsarism – the tricolor flag, the two-headed eagle, and so on. The so-called revival of Russia, killed in 1917, became, in fact, looting from the corpse of Bygone Russia. Former Russia had a completely opposite identity – the development of Monarchism.
7. The Kremlin gang led by fraudulent presidents imposed the stolen name of Russia to the whole world. In 2020, the people of so-called Russia voted for a new constitution for their country. And again the people informed the whole world that they all are a marauder led by a marauder president! And he is the guarantor of looting! Chapter 1. Fundamentals of the constitutional system – Article 1, Clause 2. states: The names Russian Federation and Russia are equivalent. Thus, the constitution of the so-called Russia – the Russian Federation – is a document permeated with the marauding name of the murdered, and therefore non-existent, Bygone Russia. This constitution is concocted for humiliation and suppression of the people, not for happiness.

8. The so-called Russia under an assumed name has penetrated into the sphere of international life – the UN, International summits, organizations and so on, which is also an act of aggression against humanity. And this creates a huge psychological trauma for every person in the world, who is brazenly deceived by an unfriendly foreign state – the so-called Russia. This especially humiliates the honor and dignity of the descendants, whose ancestors were proud of their Russia, but in an unequal battle they took torment from the barbaric Bolsheviks-communists and were forced to leave their homeland.

PUNISHMENTS FOR THE SO-CALLED RUSSIA

1. Due to the use of someone else's name Russia, she completely zeroed herself in price. We believe that will be fair the decision of any criminal court or human rights court to transfer the so-called Russia under the jurisdiction of an advanced state of the world or a group of states, or to divide the country among all countries of the world. Another fair decision is possible. To every person on our planet from the funds of so-called Russia to pay compensation for moral damage from the psychological trauma received for the fact that the so-called Russia imposed someone else's name and symbols to the whole world. The so-called Russia – a state without its own name and symbols – cannot have sovereignty! The whole world needs to end relations with the bandit formation that called itself Russia!
2. The president of the so-called Russia, the government of the so-called Russia and other marauders must be declared by each state on the international wanted list, and they must be arrested. All of them deserve a fair sentence for looting, swindling and fraud on an international scale.
3. All states of the world must pass laws against the so-called Russia. People of all countries should stop their habit and stop using the name Russia if this name refers to the state-aggressor. People should stop being complicit in the crime when they use the false name Russia, which was killed in 1917, and thereby stop helping the aggressor country to act against itself. Now the so-called Russia has name Krasnojopiya (In Russian language – Красножопия).

4. An act of atonement of sin for all residents of Krasnozhopiya (Красножопия) is to join to the united international political party-movement "civilization of longevity on the planet Peacetoall". The beginning of this redemption is adopting the Program of Emperor for Saving the World ©. Start simultaneous voting by clicking on the Green button on the website www.vsemmir.com in the section – United International Political Party-movement «Civilization of Longevity on the Planet Peacetoall»

5. Until all issues are resolved, the whole World should join the Worldwide Coalition against the so-called Russia!

While judges and competent persons are deciding questions about the punishment of the criminal so-called Russian Federation – Russia and the deprivation of its membership in the UN and the UN Security Council in particular, as an unknown formation that acts under a false name, We are offering Our creative works on the topic of the Tragedy of Russia in Russian language. The worldwide funeral process over the so-called Russia is more interesting with music!
